OCTOBER 2007, VOLUME XXIII, NUMBER 2

Dear Princeton alumni, friends and family,

As someone who became involved with the Princeton Club of Northern California shortly after graduation from the University, I have enjoyed watching PCNC grow and change over the past ten years. The Northern California region is very lucky to have a large and, more importantly, active alumni/ae base. This distinguishing characteristic of our local community has been demonstrated to me once again in the efforts of our PCNC Executive Committee pulling together the 2007 Annual Dinner (please see details below and plan to attend).

SF Discovery Walk on Nob Hill and Russian Hill (August 2007).

While overall the Annual Dinner is a huge undertaking, several Executive Committee members have volunteered to each take on an area of responsibility and make it more manageable for the team as a whole. Therefore, please join me in thanking the following Board members for both their contribution to the

Annual Dinner planning process and their longtime service to PCNC.

- **Peter Heinecke '87** has been organizing PCNC events since 1995, ranging from the Silicon Valley luncheon program to festive wine appreciation events.
- **Dave Marshak '66** has been involved with PCNC since 1980 but increased his planning role in 2004 when he took over the San Francisco luncheon program.
- **Peter Noymer '88, the club's treasurer**, has been keeping the books and actively contributing to all the Board's discussions since joining in 2001.
- **Cathy Legg Tanimura '99** has managed all the membership logistics for the Club since 2000 in addition to planning events in her spare time.

These Board members' collective quarter century of service to the PCNC is one of the things that keeps our Club going as one of the most active in the world—despite our distance from the University! Join us at the Annual Dinner to celebrate our Club's strength and vitality.

With best regards,

Christina Cragholm '97 S'96

*Join Fellow Alumni and Friends at
the Annual Gathering of the Bay Area
Princeton Community!*

THURSDAY, OCTOBER 25, 2007

6:00 TO 9:30 PM

AT THE CALIFORNIA CULINARY
ACADEMY IN SAN FRANCISCO

We are delighted to welcome Princeton University **Professor David Dobkin**, Dean of the Faculty and former Chair of the Computer Science Department to the Bay Area as our special guest for the evening. He will speak about themes from his popular Freshman Seminar "Sex, Money, and Rock and Roll: Information Technology and Society." He has impressed his students with his openness and approachability by inviting them all to be his friend on Facebook.com and through his photo-blogging site of life as a Princeton administrator. Dobkin, who has worked at Princeton since 1981, is an innovator in the field of three dimensional modeling, having recently worked on a project aimed at building a three-dimensional version of Google as well as creating software to deal with modeling faces and images.

In addition to Dobkin's presentation, guests will enjoy the traditional PCNC awards presentation, as well as be treated to excellent food by the chefs-in-training at the California Culinary Academy and wine from the vineyards of alumnus Bill Hambrecht '57.

See page 8 for further details.

30 Princeton Women's Network Annual Tea and Recipe Exchange

The Annual Tea is a favorite event on the PWN calendar for many reasons, but most of all for the excellent conversation! With so many accomplished and intelligent Princeton women with such a wide variety of interests, careers, and life experiences, each tea is an inspiring and delightful afternoon.

This year we're going to forgo the traditional panel/discussion format to allow more time for casual socializing. However, we will maintain

a simple element of "program" by having a tea and recipe exchange. Participants are asked to bring either tea or a treat (sweet or savory) and copies of the recipe to share. If you bring tea bags or loose leaf tea to share, or if your treat came from that fabulous bakery on your block, please bring information on where we can purchase that tea or treat as your "recipe".

We look forward to seeing you at Stephanie Anderson '74's home on Sunday, September 30. When you RSVP to suzytompkins@yahoo.com, please include your class year, a bit about yourself and what tea or treat you'll bring with you to the social.

7 Blue Angels Air Show at Fleet Week 6th Annual PCNC Social on Private Chartered Yacht

Princeton Club members will have the best seats in town for the legendary Blue Angels Air Show for Fleet Week, one of San Francisco's favorite annual events. We'll depart from Pier 40 and take in San Francisco Bay's most beloved sights: AT&T Park, Pier 39, Fisherman's Wharf, Ghiradelli Square, Alcatraz, the bridges and maybe even some sea lions and harbor seals. There will be indoor and outdoor seating from which to enjoy the views. Wear your orange and black for the festivities!

The yacht will begin boarding at 1:00 pm at Pier 40 in South Beach Harbor near AT&T Park in San Francisco and will depart promptly at

1:30 pm. (Note: Pier 40, South Beach Harbor is near AT&T Park and not next to Pier 39!) The yacht will return and dock at 4:30 pm.

All Princeton alumni are welcome at this event, but as a special thank you to our members, member ticket prices have been partially subsidized by the club.

20 The Rise, Fall, and Rise of Asian American Studies: Where Are We Today?

Brunch with Gordon Chang '70

Please join us for a brunch with Gordon Chang '70, director of Stanford's Asian American Studies Program. Gordon will talk with us about the evolution of Asian American Studies as a discipline and the culture and politics of how it has developed among elite universities. There will be an opportunity for the audience

to engage in conversation with Gordon, as well as talk collectively about how the environment for such courses has changed at Princeton over the years.

When Gordon Chang '70 arrived at Princeton, he was only one of 5 Asian Americans among a class of 800 men. His scholarship explores the historical connections between race and ethnicity in America and foreign relations. Recently published books include *Chinese American Voices* and *Asian Americans and Politics: An Exploration*.

4 SF Discovery Walk Lands End Coastal Trail and Sutro Bath Ruins

The Lands End area at the northwestern edge of San Francisco is now part of the Golden Gate National Parks. It offers many special attractions, including the ruins of Adolph Sutro's giant oceanside bathhouse, the Coastal Trail with stunning views of the Golden Gate, and windswept Lands End Point with a creative rock labyrinth to challenge walkers. Our route will include these highlights, plus the Palace of the Legion of Honor plaza, the VA

Medical Center at Fort Miley, a memorial for the USS San Francisco, and sunset over the Pacific. Dress in layers (something warm plus a windbreaker). Princeton friends and children are welcome, but the route is not suitable for strollers.

Driving directions: From the south, come up the Great Highway past the Cliff House, and look for the Merrie Way parking area on your left as you drive uphill. From the east, go out Geary Blvd past 38th Ave, where the main road becomes Point Lobos Ave, and continue west until you see the parking area on the right as you go downhill toward the Cliff House.

Join PCNC for the Performance of Dvorak's "From the New World"

Join Jen Huang '05 and Dan Sullivan '63 for a performance of Antonin Dvorak's symphony "From the New World," which was inspired by American folk tunes and spirituals, and the "Concerto for Two Pianos" by Bohuslav Martinu, Dvorak's 20th-century musical heir. This performance is part of the San Francisco Symphony's "Friday 6.5 Series," which features an

early start to allow time for post-performance activities, plus introductory comments by the conductor with insights about each piece on the program. Our PCNC group tickets are very limited, so send your reservation by e-mail as soon as possible, and mail your check (payable to PCNC) by October 29. PCNC members may bring one guest at the member price.

For more information about the program, visit the SF Symphony website at www.sfsymphony.org.

Healthcare for Us All to Save Us All

All of us have a stake in this. We each have our own perspective and all of our views are important. There is no way to solve this working only from the top down. We need to hear every voice. The Andrew Speaker TB scare has shown that the health problems of the poor-

est among us and on earth are the problem of all of us. Disease is no respecter of wealth and social standing. Untreated mental health problems are as bad; but their consequences lurk beneath the surface. There is no way to calculate or control the harm one seriously ill person who gets no treatment or the wrong treatment will do. So let us gather together and think it through together.

Priceless Opportunity to View Private Collection Featuring Haitian Art with Collector Arthur Albrecht, '48

Over the last couple years, Arthur Albrecht, '48 has opened his home at the base of famous Lombard Street to Princeton alums joining PCNC urban walks of Nob Hill and Russian Hill. He's thrown wonderful receptions at the close of the walks, and anyone lucky enough to stop by has had tantalizing glimpses of

Arthur's amazing art collection. PCNC asked, and he has graciously agreed, to open his collection to a private viewing by Princeton community members!

Arthur Albrecht, '48 has been collecting his remarkable collection for over 50 years, largely from travels as well as from local galleries and other sources. A large portion of his collection is Haitian. He began collecting Haitian art at a time when it was relatively inexpensive and developed an early interest because he had the opportunity to travel to Haiti. He also had

contact with a number of people knowledgeable in Haitian art. The work he has collected over the last half-century represents most of the well-recognized artists in the Haitian art world, and consists of several dozen paintings, sculptures, prints, drawings, etchings, maps, books, newspaper articles, and photographs.

In addition to Haitian art, he has collected ancient Chinese ceramic and stone work, a Chinese drawing, Mexican art, unusual Syr-

ian paintings by a contemporary artist, as well as unique framed pieces from antique books and newspapers. This is a rare opportunity to view an amazing private collection, guided by the collector. The tour will last approximately 2 hours, with a reception following to begin at about 6:45, and planned to coincide with sunset. Weather permitting, the view from Arthur's house of the city will be spectacular!

RSVP required. Limited to 75 people.

5 Madame Butterfly at the San Francisco Opera With Soprano Patricia Racette

PCNC has 12 Balcony Circle center tickets to what is sure to be a sold-out performance of Puccini's "Madama Butterfly," with soprano

Patricia Racette in the title role. Join Jennifer Huang '05 and Dan Sullivan '63 for this exceptional opportunity.

Send your reservation by e-mail as soon as possible, and mail your check (payable to PCNC) by November 15. PCNC members may bring one guest at the member price.
